

Job Description: Trainee Data Analyst

Who are we?

Axience is a KPO/Research and Consulting business and has been established with a credo of delivering “Integrated Bespoke Solutions” to our clients. We provide high quality boutique style financial and business research services to our clients. In a very short period of time we have built reputed client list which includes reputed investment banks, asset management firms, consultancies and large corporates.

Role

We are currently looking to hire fresh graduates and post graduates for Trainee Data Analyst role. Axience is committed to training its fresh graduates and help them realize their potential. In addition to some structured training, we believe that on the job training, constant guidance/mentoring and feedback is required for fresh graduates.

For the first two years trainee data analyst will participate in various areas including (but not limited to):

- Supporting Axience business development, presales, marketing and PR, maintenance and management of Axience client databases
- Data collection and analysis for various business, market and investment research projects
- Primary market research among key executives in multiple industries globally
- Support in building financial models and updating financials of public and private companies

As we are a very small team currently in Romania and are expecting to grow very fast, the opportunities for the smartest and best are only capped by their own abilities/willingness/performance.

Academic and professional background:

- Graduate/ post-graduate degree in Engineering, Economics, Business Administration, Marketing, Finance or Medical/ Pharmacy
- Other faculties are accepted as well subject to fulfillment of other criteria

Required skills

For roles at Axience, we believe that highly developed personal attributes such as smartness, sense of excellence, curiosity, hardworking attitude, analytical and problem solving skills are as important as degrees and education. Some requirements for roles in question are:

- Exceptional verbal and written skills in English
- Quick thinker and problem solver
- Ability to cope with stress and work on (sometime) extremely tight deadline driven projects/tasks
- Second international language aptitude (French, German, Spanish, Italian, Russian, Japanese, Chinese, Arabic, Turkish, Portuguese or other languages) - candidate must either be fluent or medium and interested in learning

- Must be presentable, polite and tactful with requisite aptitude to handle complicated issues through exceptional interpersonal and communication skills
- Should have strong knowledge of E-mail, Internet use, MS Office, MS Outlook, MS Word - however more important is general quickness and efficiency
- Trainable and general aptitudes
- Ability to work with numbers
- Ability to identify accurate and available information

Desired skills

- Candidates who have lived/ studied or travelled abroad are significantly preferred
- Pleasant/charming personality
- Problem solving skills
- Proactive personality, determination and perseverance

Eligibility

- Consistent academic excellence (top 10% in class)
- Internship or exchange program outside Romania strongly preferred

Why Axience

- Axience is one of the very few (if not the only) place in Romania where the roles offered directly corresponds to studies and degrees as opposed to opportunities in general BPO sectors
- We are a small and vibrant firm and opportunities come fast and all of a sudden for right ones
- Romania delivery center is highly integral to Axience business and we are committed to grow it successfully
- Stability and growth
- Challenging work environment as opposed to monotonous work
